OUR SERVICES

Being a Multimedia Service Provider, we are able to offer the following services.

Media Coverage

Whenever you have business promotion event you contact our Media House for the coverage. It is not only for business promotion but also in case you want to publicize your organization's work, do not hesitate to contact us.

Success Stories and Publication

Today many people are looking for someone who can document their success stories from the on the ground testimonies. We do that and publish them on affordable prices and we never let the client leave not served. We are here for you and you are there for us.

Service Impact assessment

We go to the field on behalf of your Organization to seek beneficiaries views on your services and compile report to be submitted in the format of your choice.

Marketing

Through our online tools we market your business to the targeted audience.

Social Media Management

We grow your fan base on social media, find real-time leads and share relevant content across all of your social channels.

The special service here is that we can manage your social media as well as other online communication platforms of your organization in case you are overwhelmed by activities that are preventing you to use those important platforms for your business/service.

We support the following Social Media Platforms:

Facebook
LinkedIn
Instagram
Twitter
You tube, etc...

Story telling in Videography & Photography

We are here also to tell your business stories in images. Today many people are looking for qualified story teller in video and pictures. Our dedicated team are here to offer that service to your organization.

Editing Services

Probably you want to publish news stories or other content on your online tools. We help to edit them before publication. Remember the content you post represents your organization. So it is good to edit first and publish after.
